DXpedition News

Malyj Vysotskij Island - 4J Martti Laine OH2BH will lead another DXpedition to **4J1FS** May 23-30. The 11-member crew includes amateurs from Finland, the USSR, and the US. Operators are OH2BH, OH2BU, OH2JA, OH1EH, K7JA, UR2AR, UW3AX, UA6HZ, UZ3AU, and UA1ALZ. They will have the capacity to put four stations on the air at the same time, propagation permitting, but only one signal per band at a time, so don't look for 20M CW and SSB simultaneously. They'll be on all bands, including the satellite. Watch the usual DX frequencies (25 kHz up on CW, and 3795, 7080, 14145, 14195, 21295, and 28495 kHz on SSB.) QSL to OH5NZ.

Tuvalu - T2 Bob KN6J, who recently operated from Ocean Island T33JS with Jim Smith VK9NS, will stop off on Tuvalu on his way home. Bob likes CW and RTTY. QSL via his home call.

Edited by Chod Harris VP2ML

The DX Bulletin

America's Premier Weekly Amateur Radio Publication

Cocos Island - TI9 Three Costa Rican amateurs fired up from Cocos Island (NA-12) May 15, for a planned stay of about one month. SSB only, 10-80 meters, including the WARC bands. QSL Fernando **TI9FAG** to Box 1, 1300 San Jose; Luis **TI9LCB** to Box 3843, 1000 San Jose; and Ted **TI9TEB** to Box 2612, 1000 San Jose (1989 *Callbook* address is no good.) (No reports after May 17th; they may have had to return to mainland.)

West Malaysia - 9M2 A group of Japanese DXers will be active from West Malaysia June 1-8, concentrating on 6 meters. Transmit 50075 or 50125 kHz, listen 25 kHz up. QSL **9M2s AQ, BZ, CS, SS,** and **YB** to JA3ADW. QSL **JA1UT/9M2** and **JA1UPA/9M2** to JA1UT. They'll also be on the HF bands, CW and SSB.

Glorioso - FR/G Yoland **FR5AI/G** has been active on 14020 kHz at 1345Z, with a T-7 note. He'll be there one month.

Shortly Noted

- Kirsti VK9NL and Laila WA4ZEL will start their Svalbard JW DXpedition June 2, for about two weeks. (See Issue 484 for more details. QSL Kirsti to VK9NL, Laila to home call.)
- Yama 5W1GP was briefly active as **3D2YY**. His plans are to move to American Samoa as **KH8AH** to the end of May. He prefers RTTY. QSL all Yama's operations to JH4IFF.
- Tom Warren K3TW was not able to get on as **D68TW**, due to work obligations. He will try again in a few weeks.
- Lloyd and Iris Colvin W6KG and W6QL has been slowly working they way through the USSR, in the attempt to operate from all 15 Soviet Republics. They use a club call with their own call as a suffix, such as **RT0U/W6KG**. QSL to Yasme, as usual.
- Peter **ZS6MI** has been worked long path on 20 meters around 1330-1400Z. Try 14190 or 14256 kHz. Also watch 28800 kHz at 14-1500Z. QSL ZS6PT.
- **T5CT** is the call of N4CT, who says he'll be in Somalia for two years. QSL home call.
- Tom Gregory **9Q5NW** wraps up his African tour in mid-June. Sig **SU1EE** moves to Zaire in the Fall.
- UT5RP says UA3TT will operate **/RF1** May 25-June 9, **/RG1** June 10-13, and **/RF2** June 14-25.
- K1NIT meets with UZ9CWA at 1300Z Friday and 0300Z Saturday on 14270 kHz. Other USSR stations join them.
- Mike Sochinski RA3YG was active **/RA1P** from Oblast 114 last week. QSL Box 5, Bryansk, 241000 USSR.
- A group from England will be **/CT3** May 31-June 14, concentrating on VHF, including 6 meters, but with HF operation as well. G4VXE, GW8TVX, GW4LXO, GW4TTU, G4GHT, G8ROU, and G0DAZ are the ops. (Thanks DXNS.)
- The SPDX Club will celebrate their 30th anniversary for a week around June 9 with the call **SQ30DXC** (or SQ0DXC).
- New Zealand amateurs may substitute the prefix **ZM** for ZL June 1, 1989- Dec. 31, 1990.
- In honor of the visit of Pope Jean Paul II, the special call **LE1JP** will be on from Norway June 1-3. QSL LA4DCA.
- Armando **XE3ARV** says he's on 28010 kHz 12-1600Z, and 3505 kHz 09-1200Z. QSL direct, but he doesn't like IRCs.
- Regulars (callsign, frequency or band, UTC): **KH6CC** 1832 0515Z; **3B8CF** 14030 1300Z or 0330Z; **HK0BKX** 14017 12-1300Z; **TA2BK** 14027 0300Z, 21025 01-03 and 20-2200Z; **JT1KAI** 21025 0200Z; **JY9SR** 21031 01-0300Z; **SU1EE** 21027 01-0300Z; **9Q5XX** 21250 1700Z; **JT1KAA** 21250 2330-0130Z; **SU1EK** 15M SSB 0200Z; **UI8GF** 15M SSB 0130-0230Z; **UI8DAM** 15M SSB 1750Z; **6W6JX** 28020 1250Z; **LU1ZA** South Orkneys 10M CW 1800Z; **3B8CA** 10M SSB 1400Z; **3DA0AX** 28435 1800Z; **HL5BDS** 28430 13-2000Z.
- SSB Net Check-ins: 40M 5T5CK HH7PV CP8HD FK8FU; 20M YI1BGD YK1AO EP2HZ RI8AB 9M6HF 5T5HH; 15M 9X5KP TZ6MG ZD8RP.
- RTTY active stations: **SU1EE** 90 kHz up 03-0500Z; **YI1BGD** 14078 ARQ 1600Z; **9M6HF** 21080 1600Z; **ZD8MAC** 21086 1900Z; **TK5IU** 14083 2220Z; **CO2BB** 14096 0130Z; **KC6MA** 14040 1330Z; **9X5AA** 21094 1730Z; **HP1AC** 21088 2000Z. JG1RVN's **KC6TY** operation from Palau was slightly delayed; he should be on soon.

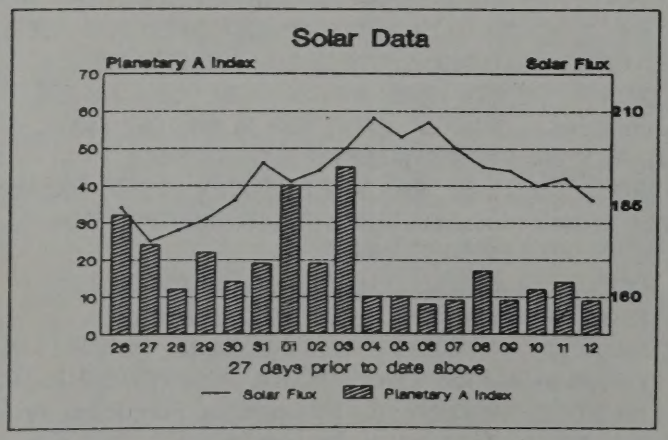
Propagation Watch

The superb band conditions that started the second week in May continued for another week. Although solar flux levels remain stagnated in the 180-200 range, this level has been high enough to keep the bands hopping, with world-wide propagation on 15 meters, and excellent low-latitude signal strengths on 10 meters. 20 meters continues to remain open to some part of the world throughout the darkness hours. The local dawn long path to the west is still very productive of good DX.

The prolonged stretch of low geomagnetic activity has produced some exceptional band openings. 15 meters can open two hours before local sunrise, and stay open into the wee hours of the morning. We have received reports of 15-meter long path about an hour after local dawn; check the opposite direction for the strongest signals. And we have even had scattered reports of 10-meter long path, such as from the midwest to Japan at 1330Z on May 11. This is four hours after local sunset in Japan. Probably the reason we note so few reports of 10-meter long path is not that the opening is so scarce, but rather so few DXers look for it!

We are way overdue for a return to more active geomagnetic conditions, and deteriorating long-haul propagation. Sunspot region 5495 is growing very rapidly, and increasing in complexity, and may trigger another series of band-destroying flares at any time. Make the most of the excellent propagation now; it won't last indefinitely. The forecast, based on solar conditions one solar revolution previous, is for increasing solar flux and geomagnetic activity over the next two weeks, before improving again in early June. Check WWV at 18 minutes after the hour for the latest news.



DX Conventions

▪ **Japan Ham Fair** The Japan Amateur Radio League (JARL) holds their annual Ham Fair at the New Hall of the Tokyo International Trade Center in Harumi, Tokyo, Japan, Friday August 25 to Sunday August 27. Doors are open 10am-6pm. 110 commercial booths will feature ham radio and computer equipment. Associated activities include a flea market, vintage radio display, technical forums, CW and home-brew contests, etc. Tickets are ¥900 (about US$7) at the gate. Last year 57,000 visitors from 16 countries attended Ham Fair '88, making it the largest amateur radio convention in the world.

▪ **Lynx DX Group** holds their 11th convention June 3-4 at the Hotel Cervantes in Torremolinos, Spain. Possible topics include 4J, S0, FO0, XV, XF4, and others. For more information, contact EA5BY.

▪ The **Polish DX Club** holds its annual meeting October 7-8 in Krakow, Poland. Krakow is an old town with many monuments of architecture and art. It was the capital of Poland before Warsaw. For more information, contact the SPDXC Organizing Committee, PZK, P.O.Box 606, 30-960, Krakow, Poland.

▪ The **Danish DX Group** holds its annual meeting In Ebeltoft June 10-11. Ebeltoft is a vacation resort, and accommodations are very reasonable. The meeting will include presentations by John ON4UN on his low-band experiences and antennas, and by Peter OH1RY on his Pacific DXpeditions. (Thanks DXNS.)

Kalawao County Expedition

Kalawao County on the north side of the island of Molokai in Hawaii is one of the most difficult counties to work in the United States. Kalaupapa in Kalawao county is a former leper colony, and continues as a hospital and refuge for persons suffering from Hansen's Disease, as leprosy is now know. The area is a National Historic Park.

Takeo Yamashiro (known as Shell on the air) KH6FS will lead a group of DXpeditioners to this county June 29-July 2 to help county hunters world-wide. They will be on from 0500Z June 30, to 2000Z July 2, on the following frequencies: 3990, 7280, 14335, 18150, 21435, 24140, and 28700 kHz SSB, and 3575, 7045, 14075, 21075, and 28075 kHz CW. They intend to concentrate on 80-20 meters 05-1000Z, 17-10 meters 1700-0500Z, and 80-17 meters 2000-1200Z.

The callsign to be used is **KH6FS/KH6**, and a special QSL will be available for a self-addressed, stamped envelope (SASE) from KH6FS, Box 215, Kaunakakai, Molokai, Hawaii 96748. Donations would also be greatly appreciated.

More Controversial QSL Practices

The DX Advisory Committee (DXAC) may take up the question of what are acceptable QSL practices. Among those practices that may be considered controversial are returning cards 'printed matter' rate, when sufficient postage or funds were provided for airmail return. In addition to F6FNU, LA5NM and I0DUD (for HV3SJ) returned cards 'printed matter' when a US$1 was sent. Also, The DX Bulletin analysis of postage rates show no country requires more than US$1 of postage for the minimum weight return (good for one card and envelope.) So why are some DXers requiring US$2? Finally, some DX stations return more than one QSL card in an envelope, asking the stateside recipient to forward the additional cards at his own expense. Obviously, not all DXers are kind enough to do so. What is the opinion of The DX Bulletin readers on these practices?

B . A . N . D . P . A . S . S

*Key to Bandpass: Callsign, frequency, UTC, day of the month, state. * = long path. P = packet.*
All "portable" calls listed with country of operation first, regardless of format used on the air.
